

AUDIENCE

The field reset volunteer is responsible for quickly and correctly restoring the playing field back to the original pre-match setup so that the new match can begin. The diagram in this document provides a visual of what the pre-match setup looks like so that you can successfully reset the field for the next match.

- A. Place 4 POLLEN in each FLOWER.
- B. Place 8 POLLEN in the blue ALLIANCE AREA and 8 POLLEN in the red ALLIANCE AREA.
- C. Place 4 POLLEN in each GARDEN along the FIELD perimeter walls closest to the ALLIANCE AREA, biased towards the ALLIANCE AREA.
- D. Place 5 red NECTAR in the red ALLIANCE tray. Place 5 blue NECTAR in the blue ALLIANCE tray.
- E. Set up the HIVES as follows:
 - i. Tilt the red HIVE to raise the CELL closest to the audience up, and tilt the blue HIVE to raise the CELL farthest from the audience up; the two HIVES will be in reverse. Note that the cells facing down are those “pointing at” flowers on the audience and far walls.
 - ii. Place 3 ALLIANCE-colored NECTAR into their corresponding raised ALLIANCE HIVE CELLS. Ensure the NECTAR in each CELL is contacting the back wall of the CELL biased towards the side closest to the ALLIANCE AREA of the corresponding ALLIANCE color.
